

AIRSTRIP

ACCELERATOR SERVICES™

Realizing the full value of your mobility solution takes careful planning and execution at every step. Building on the AirStrip ONE® enterprise mobility solution, AirStrip Accelerator Services provide that support, helping you rapidly achieve your strategic mobility goals—and quantify their impact on your institution's clinical and business performance.

AirStrip Accelerator Services provide the expertise and analysis to help you realize the full value of the AirStrip mobility solution. Our experienced team works with you through the entire solution lifecycle—from pre-sale assessment and baselining to implementation and impact analysis—to accelerate time-to-benefit and ensure sustained rewards.

AirStrip Accelerator Services are focused on delivering real value, collaborating with your team to:

- **Establish clear objectives for mobility** tailored to your institution and based on pre-sales evaluation of your clinical and business goals, your workflows, and your IT environment
- **Get you up and running quickly** while minimizing disruptions with an AirStrip implementation plan and process aligned in close collaboration with your institution's clinical, business and IT leaders
- **Encourage adoption of mobility** across your enterprise, reinforcing uses of AirStrip solutions that promote wins for clinicians and achieve your health system's operational and clinical goals
- **Drive clinical transformation** with a fact-based approach to clinical and operational performance improvement. Using live, historical, and trended digital data on your patient population and mobile clinician interactions, we create actionable insights to transform care through mobility

- **Measure and manage the impact of mobility** to help ensure you are meeting or exceeding your institution's clinical, operational, and meaningful use compliance goals

In order to drive real transformation, great technology by itself is not enough. AirStrip Accelerator Services leverage our industry-leading expertise, gained through successful implementations nationwide, to help your institution fully realize the promise of mobility.

### AIRSTRIP ACCELERATOR SERVICES™

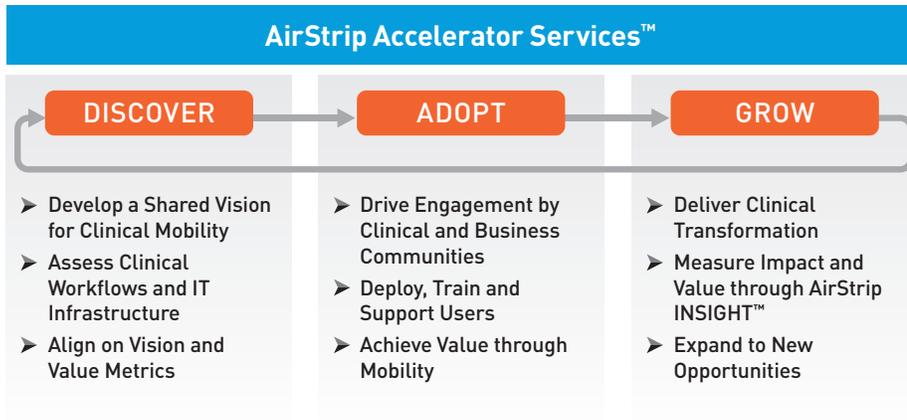

AirStrip Accelerator Services help you realize the full strategic value of mobility for your institution at every implementation stage:

#### Pre-sale Assessment and Baselining

We engage hospital leadership on mobility goals and use cases that align physician "wins" with strategic and operational objectives. We evaluate the current state of your infrastructure and workflows in light of desired use cases to define the optimum path forward with AirStrip mobility solutions.

#### Comprehensive Project Management and Ongoing Client Support

Our multi-disciplinary Implementation Team works closely with clinical, business, and IT stakeholders to achieve a successful rollout. Hands-on training for both administrators and users enables rapid adoption and time-to-benefit. Following go-live, our 24-hour

AirStrip Accelerator Services provide clinical, technical, and business support to optimize the delivery, management and measurement of the value achieved through clinical mobility.

Technical Support is there whenever you need assistance. Proactive system monitoring helps spot problems before they impact users. Our partnership with you extends beyond implementation to adjust to your ongoing clinical and operational goals.

**Analytics and Benchmarking**

AirStrip Analytics provide the business intelligence needed for ongoing insight into value delivered by AirStrip mobility solutions. Timely access to utilization trends and analysis allows effective performance management. You can engage our team for analysis on financial, clinical, and regulatory results and predictive modeling for future planning.

**Clinical Transformation**

Our Clinical Transformation Team, with extensive consulting and operational transformation experience, provides the expertise and guidance to help you create lasting value by tapping the full potential of mobility. Through effective clinician engagement, we reinforce high-value use cases, enhance utilization of AirStrip solutions in clinical workflows, cultivate clinical champions, and drive continuous improvement through our analytics.

**ABOUT AIRSTRIP®**

AirStrip is guided by a bold vision: harness the power of mobile communications to change the way healthcare is practiced. The AirStrip ONE® enterprise mobility solution can improve the quality and timeliness of care, increase patient and clinician satisfaction, can enhance financial performance, and reduce risk. Headquartered in San Antonio, Texas, AirStrip is empowering the nation’s leading health systems to compete and succeed in today’s rapidly changing environment.
